The MAILING DATE of this communication appears on the cover sheet with the correspondence address								
Period for Reply  A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).  Status

Application/Control Number: 09/506,713

Art Unit: 1764

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The claimed "spacing have a blind ratio of not less than 0.2 and not more than 17" is not positively recited in the specification.

Claims 9-10 provides for distilling in a perforated tray tower without down comer, but, since the claim does not set forth any additional steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites the structure without any further method steps from distilling is recited.

Claims 1-2 and 4-7 are rejected under 35 U.S.C. 101 because the claimed recitation more of structures, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Dap. 1967) and *Clinical Products, Ltd.* v. *Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

a. Claim 4 does not differ substantially from claim 1 with respect to the structural elements involved. The differences seen are in the preambles and in the "wherein" clauses in the claims. However, these differences are deemed not patentably distinguishable because a preamble may or may not even be given patentable weight, and the "two or more" in the "wherein" clause of claim 4 falls within the "multiple perforated trays in the "wherein" clause of claim 1.

In claim 6, it is unclear what constitute the "higher" within the context of b. the claimed invention.

Claims 1-2, 4-7, 9-10 and 12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claims 3 and 14 are allowed.

Any inquiry concerning this communication from the examiner should be directed to V. Manoharan whose telephone number is (703) 308-3844. The examiner can generally be reached on Tuesday--Friday from 7:30 a.m. to 6:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on (703) 308-6824. The fax phone numbers for the organization where this application is assigned are (703) 872-9311 for regular communications and (703) 308-0651 for After Final communications.

Any inquiry of a general nature or relating to the status of this application should be directed to the receptionist whose telephone number is (703) 308-0661.

V. Manoharan/dh September 2, 2003
